

A large, light gray arrow pointing to the right, with a green arrow graphic overlaid on its left side.

## Hyperconverged Infrastructure For The Small and Medium Enterprises

### Nutanix Promotional Kit

NX-1365S-G5-XXXXX

# > Nutanix Hyperconverged Infrastructure Simple, Scale-out, Hi-Speed

## Traditional Infrastructure

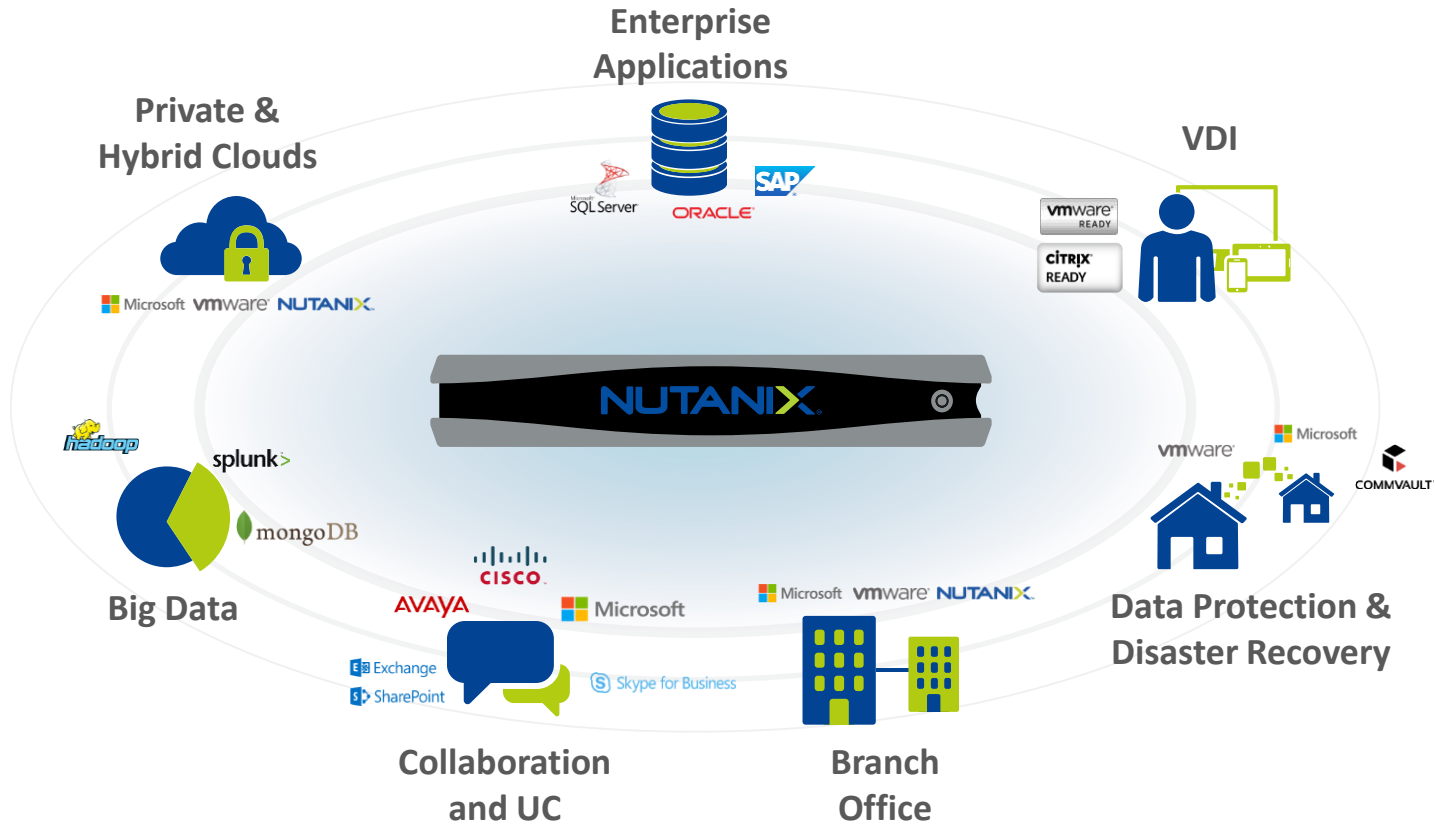

## Web-scale Converged Infrastructure

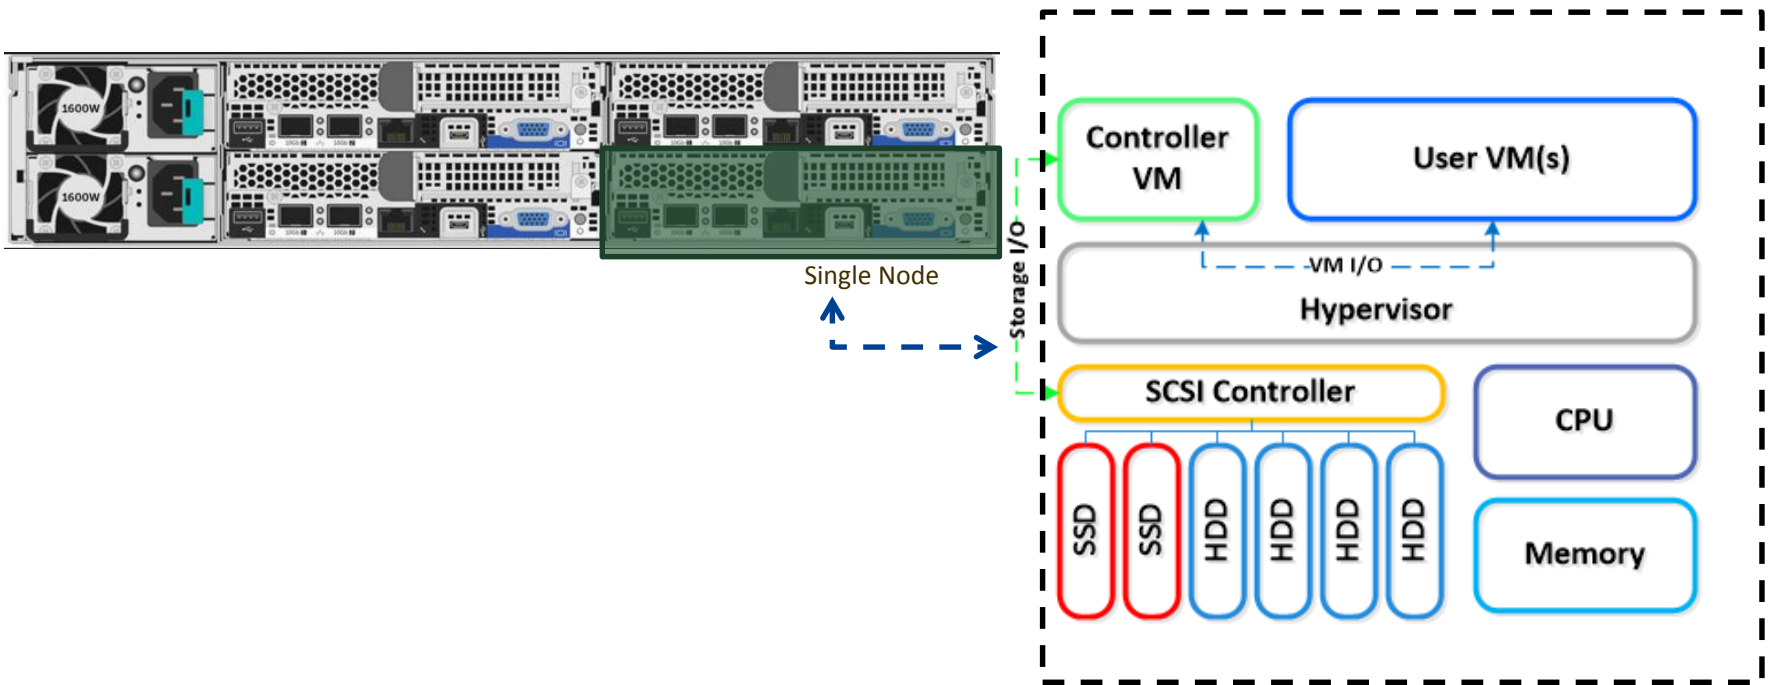

✓ Compute ✓ Storage ✓ Virtualization

# Powering All Workloads and Use Cases

# > Architecture of Nutanix

# > Why Virtualize with Nutanix?

## > Uncompromisingly simple

30 to 60 minute deployment. No storage expertise required.

## > Rapid and seamless scalability

Scale datacenters one server at a time with zero downtime

## > Predictable performance

Fast and linear performance at any scale

## > Lower TCO

No more IT silos → 40-60% management savings  
5 to 10 times less space, power and cooling

## > Better Business agility

Fastest time to value. Pre-validated solutions.

The Nutanix logo is displayed in a large, light blue circular graphic on the left side of the slide. The word "NUTANIX" is written in a bold, blue, sans-serif font, with a green chevron symbol integrated into the letter "X". A registered trademark symbol (®) is located to the right of the "X".

**NUTANIX®**

# > Acropolis Hypervisor and VM management

## Hypervisor Management

**Host Profiles:** Standardize configuration of hosts within a cluster based on user-provided information. For example, every Nutanix container can be automatically mounted to every host as a datastore

**Virtual Networking:** Setup and configure layer-2 VLAN backed virtual networks spanning the cluster. Use in-built IP management for layer-2 networks

**Upgrades:** Upgrade NOS, hypervisor and firmware in a Nutanix cluster

**Maintenance Mode:** Put hosts into maintenance mode for planned upgrades and host removals

**Scaling:** Easily add and remove nodes in minutes

## Virtual Machine Management

• **VM Operations:** Create, delete, update, power, pause/resume VMs, access via remote console

• **Resource Scheduling:** Determine initial placement of virtual machines based on CPU and memory availability

• **Migration:** Live migrate VMs across hosts

• **Snapshots and Clones:** Rapidly create efficient snapshots and clones of VMs

• **IP Management:** Assign dynamic IP addresses to a VM at the time of creation for the life of the VM

• **Analytics:** Monitor and report key metrics for both VMs and the infrastructure (hypervisor, physical nodes)

# > Start Your Hyperconverged Journey Today

## New launch – Nutanix Promotional Kit

- **NEW NX-1365S-G5-XXXXX promotion**
- 3-node configurations at an **exceptional high value for price ratio**
- **Acropolis software Ultimate edition** – full suite of Nutanix software capabilities included
- Available with **1 year Support included**

# > Nutanix Promotional Kit Configurations

## PROMO 1 (NX-1365S-G5-00000):

- **3 NODE Configuration**
- **3 X Intel Xeon Processor 1.7GHz** 8-core Broadwell E5-2609 v4 20M Cache
- **192GB DDR4 Memory** (12 X 16GB DDR4 Memory Module)
- **12TB 3.5" HDD** (6 X 2TB 3.5" HDD)
- **1.4TB 3.5" SSD** (3 X 480GB 3.5" SSD)
- **Prism Starter Management**
- **Acropolis Ultimate** License Entitlement
- **1 Year** Production System Support

## PROMO 2 (NX-1365S-G5-11100):

- **3 NODE Configuration**
- **3 X Intel Xeon Processor 2.1GHz** 8-core Broadwell E5-2620 v4 20M Cache
- **384GB DDR4 Memory** (24 X 16GB DDR4 Memory Module)
- **24TB 3.5" HDD** (6 X 4TB 3.5" HDD)
- **1.4TB 3.5" SSD** (3 X 480GB 3.5" SSD)
- **Prism Starter Management**
- **Acropolis Ultimate** License Entitlement
- **1 Year** Production System Support

# Available with Ultimate Software Edition

## Enterprise Storage

Cluster Size (Unlimited)

Heterogeneous Clusters

VM-centric Snapshots & Clones

Data Tiering

Inline Compression

Inline Performance Deduplication

MapReduce Compression

MapReduce Deduplication

## Infrastructure Resilience

Data Path Redundancy

Tunable Redundancy Factor (2 or 3)

Availability Domains

## Data Protection

1-1 Replication & Disaster Recovery

Bi-directional Replication & DR

Online Cluster Grow/Shrink

VSS Integration

Time Stream

Cloud Connect

Multiple Site DR (1-to many, many-to 1)

Metro Availability

## Security

Client Authentication

Cluster Lockdown

Data-at-Rest Encryption

## Management & Analytics

Prism Element

Pulse

Cluster Health

One-click Upgrades (Nutanix OS & Hypervisor)

Prism Central

Rest APIs

## Virtualization

vSphere & Hyper-V Support

Built-in Acropolis Hypervisor

VM Operations

Intelligent VM Placement

Virtual Network Configuration

Host Profiles

## > Prices and terms

PROMO 1 (NX-1365S-00000) Price:  
US\$ 29,900

PROMO 1 (NX-1365S-11100) Price:  
US\$ 37,375

- All prices are end-customer prices with delivery included and without VAT
- Delivery within 3-4 weeks from ordering date
- Adding a 4<sup>th</sup> node in initial configuration is possible – price for the uplift is available per request
- Purchasing 3 Years Production System Support instead of 1 Year is optional – price for the uplift is available per request
- PROMOTION is valid until last ordering date: December 31, 2017

**NUTANIX**®
